IMPROVEMENTS  
AT COLUMBUS

New Buildings Being Constructed and Many Wells Are Dug.

Columbus, N. M., July 27.—John Franks has just completed a well for the Gibson brothers, north of Columbus. A test pump was installed Saturday and run for several hours, when it was found that the column of water had not diminished in the least. They are now preparing to install a 25 horsepower engine and a six inch centrifugal pump. This is the first irrigation well that has been produced in that section, and many others will be quick to follow. Several of the Gibson brothers' neighbors have been watching the development of this well and are now making preparations for the sinking of similar wells on their own lands.

Bosch, Peters and White have finished one of the best shallow wells ever dug in this country. The well is 48 feet in diameter and only 30 feet deep. The water stands several feet high in the well and the pumping depth is 28 feet. They have installed a 15 horsepower engine and a five inch centrifugal pump and are pumping from 600 to 800 gallons per minute. This is considered a remarkable flow of water for so shallow a depth.

The new drug store building is now nearing completion. This week will see the finishing touches put to it. Dr. Linhart has his stock of drugs already ordered and will begin business as soon as the contractors have turned over the keys.

Sam Ravel is getting the material on the ground for a two story addition to his store. The new building will be 90 feet long. The upstairs will be finished for lodge purposes.

P. C. Mosley is putting up a new store building just opposite the E. P. & S. W. depot. The building when completed will be occupied by the post-office.

The new Methodist church is now nearing completion and the date for dedication has been set. Rev. Addis Albino, the pastor, is in correspondence with a number of eminent divines who expect to be present on that occasion—August 27. The new church is a beautiful structure, fit to adorn a town of much larger proportions than Columbus now is. But the building committee was evidently looking forward to a greater Columbus when they laid the foundation for such a structure.

Lieut. F. B. Edwards, commanding troop C, Fourth cavalry, who was thrown from his horse last Friday, receiving a number of severe wounds about the face and body, is now able to be up again.

Col. A. O. Bailey reports that the recent heavy rains have damaged his irrigation ditches and crops to the extent of nearly \$1000.

Mr. and Mrs. F. H. Peach entertained a party of young people at their home Friday night. The evening was spent in music and dancing.

Misses Zelds, Odyke and Beulah Blair are El Paso visitors this week.

Mr. W. P. Sand, of Morenci, Ariz., is visiting with her brother, A. B. Carter, this week.

Mr. and Mrs. S. H. Dorris left Sunday for a month's visit with friends in El Paso.

J. W. Wiley and Miss Sadie Lilly, both of El Paso, are the guests of their parents, Mr. and Mrs. E. S. Lilly, this week.

E. R. Lee is in receipt of a letter from surveyor general March, of Santa Fe, to the effect that all arrangements are being made for the surveying of township 28, range 7, lying southwest of Columbus. This is one of the finest bodies of land lying in the Mimbres valley. About 25 families have already settled in this township.

The increased business of the Gem restaurant has caused another room to be added thereto. The demand for carpenters here is so great that it was necessary to put the building up during the night.

A. I. Boyd imported 300 head of cattle from Mexico Saturday, which were shipped to the eastern market.

maintenance of the school. Chairman Smith told your correspondent that he had been asked to call a meeting at an early date by senator Pomeroy of Ohio, who has interested himself in the bill, while senator Buxton, of Ohio, and two or three other senators, had asked that the bill be taken up at this session. The bill was first introduced in the house by delegate W. H. Andrews, but he could not get it considered there, so he had it introduced in the senate. There is every possibility that the bill will pass, if the senate committee reports it out immediately.

## May Get Bank Here.

Postal savings banks have been authorized at Big Springs and Cameron, Texas. Now that the postmaster general has started establishing offices in first class offices, El Paso will probably be selected in the next few weeks. Albuquerque and Phoenix were in the list of 10 which was announced following the introduction of the postal savings banks into first class offices. Chicago, St. Louis, New York and Washington were the first first class offices to be given the new banks and the western cities were included in the second group named.

## RAINS IN MELROSE VICINITY

## CAUSE FARMERS TO REJOICE.

Melrose, N. M., July 27.—Persons who have been over the country for 40 miles back of this place are enthusiastic in their reports of what they find. Not all the places are in cultivation this year, but all that have been well handled show splendid results.

Only one storm has done any damage. That brought some hail that was confined to a narrow strip and blew down two small claim shacks and moved a larger building a little at the Litchfield farm.

Cantaloupes are ripening and melons will be ready in car lots before many days.

The shipment of cream has begun and promises to develop into a big thing for the town. It is turning the farmers' attention more and more to the necessity of feeding their fatter crops in order to get the value of them and there is already talk of putting in some silo.

## CANANEA SCHOOL HOUSE

## IS STRUCK BY LIGHTNING

Cananea, Sonora, Mexico, July 27.—During an electrical storm the Mesa schoolhouse was struck by lightning and badly damaged by fire. When the fire was discovered the roof was ablaze. After a hard hour's work the firemen succeeded in controlling the blaze, but not until the building was almost totally ruined.

Miss Harriet Rawlins will leave this afternoon for a visit to friends in Dallas.

Mrs. William Cahill, of Mesalero, N. M., is improving rapidly from an operation at Hotel Dieu.

MESQUITE BRIDGE  
IS REPORTED SAFE

Farmers Called Out to Protect the River Banks Above There.

La Mesa, N. M., July 27.—The Mesquite bridge is still safe, but the farmers were all called out today to work on the river just above the bridge as a very large rise would cause an overflow.

J. D. Williamson has been appointed trustee to fill the vacancy made by Dr. R. S. Jackson's resignation.

Miss Emma Reese is spending a few days with friends in El Paso.

W. A. Sutherland, of Las Cruces, is here on legal business.

Mr. and Mrs. Walter Mossman are visiting Mrs. E. H. White.

Miss Ruth Hyland, who has been attending the summer normal at Silver City, has returned.

A. M. Greenwood and D. E. Jeffery, of Anthony, are here on business.

## CRUCES BASEBALLISTS ARE

## PRACTISING EACH DAY

Las Cruces, N. M., July 27.—The picked nine to play the Southwestern railroad nine on Sunday, is working out every evening on the diamond. It is expected that a hotly contested game will result and the invitation goes out to every fan in El Paso to come to Crues on Sunday and see a good ball game.

It is hoped that the officials of the El Paso Southwestern will take this occasion to visit the upper valley.

## New Map Filed.

Plat of the Lopez addition to Anthony filed in the office of the county recorder. This addition lies north of the town of Anthony and joins the Miller addition.

ANDREWS FAVORS  
PARK IN ORGANS

Will Exert Influence to Secure National Forest Reserve There.

Las Cruces, N. M., July 27.—In letters received from delegate Andrews addressed to R. H. Sims and W. W. W. on the committee for the establishment of national forest reserve in the Organ mountains, Mr. Andrews gives assurance of his interest in the movement and pledges his influence.

Mr. Cox, talking of the proposed reserve, expressed the opinion that it was one of the best moves for the preservation of the natural resources of the valley that could be taken up at this time, as the picturesque Organ mountains have ever been the resort of the residents in the valley, and the cutting of timber and denuding of the fertile mountain sides by numerous herds of goats will soon cause the springs to dry up and the mountains to become nothing but barren wastes.

A meeting of the committee will be held at an early date and a report of the progress of the work will be submitted at the next meeting of the chamber of commerce.

## LAS CRUCES DAILY RECORD.

Las Cruces, N. M., July 27.—The following papers have been recorded in the office of county recorder:

Drink From Saloon Drain Pipe and Make Loungers Lively.

Trenton, N. J., July 27.—"Buzz-hie-buz-z-z-z-hie."

That is the song of the flies, hornets and bumblebees in Essex Falls, N. J., these days.

From a hotel on Roseland avenue beer trickling out of the drain leading to the barroom and into an open ditch.

The flies, hornets and bumblebees of Essex Falls found this ditch on Monday and almost immediately all insect pledges of sobriety went by the board.

The honest folk of Essex Falls declare that the flies, hornets, and bumblebees, after imbibing freely, attack them most ferociously.

D. M. Wootton, clerk of the local board of health, has registered a complaint with the Caldwell board of health.
